### Gynaecological Imaging

- Pelvic Ultrasound
- Sonohysterogram (pelvic ultrasound, assessment of cavity with saline infusion)
- Hysterosalpingo Contrast Sonography (HyCoSy; pelvic ultrasound, assessment of cavity and tubal patency)
- Deep Infiltrating Endometriosis Study (with bowel preparation)

- Notes:**
- It assists most assessments by attending your appointment with a **comfortably full bladder**. This may be achieved by drinking approximately 2 glasses of non-gaseous fluid within the hour prior to your scheduled examination and not passing urine. If at any time you experience discomfort, please talk to the receptionist.
  - Some examinations require an internal/vaginal ultrasound assessment, which will be explained to you and will only be undertaken with your consent.
